More than 70 strong, the Women's Recruitment Team (WRT) is a volunteer student group of current Georgia Tech women who are passionate about their work with the Office of Undergraduate Admission. They participate in and support recruitment initiatives and events on and off campus.

You will meet WRT members at Preview Tech and Women@Tech programs. Students admitted to Georgia Tech will mingle and connect with WRT during spring events such as the Admitted Women’s Social.

6,240 undergraduate women at Tech
$70,000 median starting salary
97% female first-year retention rate
3.42 average first-year GPA

FACULTY SPOTLIGHT:
MARILYN A. BROWN

Marilyn A. Brown is a Regents Professor in the School of Public Policy at the Georgia Institute of Technology, where she created and directs the Climate and Energy Policy Lab in the School of Public Policy. Her research focuses on the design and modeling of energy and climate policies, with an emphasis on the customer side of the electric meter including solar power, electric vehicles, and energy efficiency.

On the interdisciplinary nature of classes in the Ivan Allen College of Liberal Arts, she noted, “I think it’s important because it’s creating the next generation of leaders who are grounded broadly enough to direct the future of companies and agencies because they have that technical background and then the understanding of how public policies are shaped.”
Women’s Programming
Women are engaged throughout campus, but there are also many opportunities to promote their leadership and advancement.

- Women’s Awareness Month
- Society of Women in Business
- Women’s Leadership Conference
- Society of Women Engineers
- Women in the Wilderness
- Women@CC
- Women, Science, and Technology
- Women in Architecture
- 14 sororities
- 14 sports (club- and varsity-level)

STUDENT SPOTLIGHT:

ALIYAH Conyers, GA
B U S I N E S S A D M I N I S T R A T I O N

Over the years, Georgia Tech has provided me with countless opportunities that not only challenged but further inspired my desire to pursue an occupation within the health field. The semester before my fourth year, I studied abroad in Madrid, Spain. In a setting that was completely different from familiarity, I gained a valuable global perspective while simultaneously widening my outlook for the future. This experience, in addition to many others, serves as a constant reminder as to why I chose Georgia Tech!

HANNAH Marietta, GA
B I O M E D I C A L E N G I N E E R I N G

I started at Georgia Tech with the goal of gaining the knowledge and skills to become a great engineer. During my time here, I have learned not only what I need to achieve academic success, but also so much more. Through involvement in a variety of student organizations, I have developed into a confident leader, and I have had the chance to serve campus and the world around me. I have also created a supportive personal and professional network that I know will last me long after I graduate.

ALUMNI SPOTLIGHT:

ANUSHKA Plainsboro, NJ

At Georgia Tech, I found open doors to anything I dreamed to learn and resources at every corner to guide me. Inside this diverse environment, I picked up unexpected skills and passions through my rigorous classes, internships at Fortune 500 companies, and interactions with peers and faculty. All these experiences allowed me to develop a unique, multidisciplinary skill set, fit to solve the next big problems in my field. As I start my first job, I take with me a lifetime love of innovation and a fresh approach to problem-solving, all because of the opportunities I had at Georgia Tech.

Georgia Tech has awarded more engineering degrees to women than any other school since 2007.
