ENGL 1101 English Composition I = 3 credit hours  
ENGL 1102 English Composition II = 3 credit hours  
COA 2242 Art History = 3 credit hours  
CS 1371 Computing for Engineers = 3 credit hours  
ECON 2106 Principles of Microeconomics = 3 credit hours  
HIST 2112 United States Since 1877 = 3 credit hours  
SOC 1101 Introduction to Sociology = 3 credit hours  
PSYC 1101 General Psychology = 3 credit hours  
INTA 1200 American Government = 3 credit hours  
HTS 2013 Modern America = 3 credit hours  
HTS 2084 Technology and Society = 3 credit hours  
ECON 2100 Economics and Policy = 3 credit hours
Classes for Incoming Freshmen
Summer 2011 Late Short (Five-week) Session Starting on June 27, 2011

Course options have been designed to meet a core requirement useful for any major at Tech. English 1101 and 1102 are required for all majors at Georgia Tech. Social Science course work and the Legislative Requirement are also mandated for every major at Tech. CS 1371 is a required class for all Engineering majors. Students will meet with their academic advisors during FASET to discuss their course recommendations for summer and fall semesters.

**Important notes for new freshmen enrolling in the short summer session:**

- New freshmen are expected to take six semester hours during the late short summer session. Due to the compressed format of this session, freshmen will not be allowed to take more than 6 credit hours to ensure that they are appropriately challenged by the courses but not overwhelmed by the amount of work. Requiring them to take no less than 6 hours will ensure a quality and realistic academic introduction to Tech and will allow them to be eligible for financial aid if they qualify for it. This is why 6 credit hours are required of all incoming freshmen.
- New freshmen will not be pre-registered. It will be their responsibility to select two courses (6 credits) for the late short session. Academic advisors will meet with students prior to registration. In addition, Registrar’s Office staff will be available during the registration period to assist students and answer questions.

**Course Descriptions**

ENGL 1101 - English Composition I (Develops analytical reading and writing skills through the investigation of methods used in cultural and literary studies and the application of those methods to specific texts. 3 credit hours – Humanities Requirement)

ENGL 1102 - English Composition II (Develops communication skills in networked electronic environments, emphasizes interpretation and evaluation of cultural texts, and incorporates research methods in print and on the Internet. 3 credit hours – Humanities Requirement)

CS 1371 - Computing for Engineers (Foundations of computing with an introduction to design and analysis of algorithms and an introduction to design and construction of programs for engineering problem-solving. 3 credit hours)

INTA 1200 - American Government (Examines American government in relation to other political and economic systems in countries around the world. Credit not allowed for both POL 1101 and INTA 1200. 3 credit hours - Country and Region (IP), Legislative Requirement, Social Science Requirement)

SOC 1101 - Introduction to Sociology (A study of basic social relations, including social structure and functions, analysis of social processes, the foundations of personality, and analysis of social organization. 3 credit hours – Social Science Requirement)
Classes for Incoming Freshmen
Summer 2011 Late Short (Five-week) Session Starting on June 27, 2011

ECON 2106 – Principles of Microeconomics (This principles of economics course is intended to introduce students to concepts that will enable them to understand and analyze structure and performance of the market economy. 3 credit hours – Social Science Requirement)

HIST 2112 - United States Since 1877 (The social, political, and economic history of the United States since Reconstruction. Topics include American industrialization, two world wars, New Deal, and the Civil Rights movement. 3 credit hours – Legislative Requirement, Social Science Requirement)

PSYC 1101 - General Psychology (A survey of methods, findings, and theories of the science of mind and behavior. 3 credit hours – Social Science Requirement)

COA 2242 – History of Art II (A survey of artistic manifestations from primitive times to the present. First semester sequence, prehistoric through Renaissance; second semester Renaissance through contemporary art. 3 credit hours – Humanities Requirement)

HTS 2013 – Modern America (Dawning of the atomic age, anti-communism, the Civil Rights Movement, New Frontier and Great Society, Vietnam and the tumultuous 1960s, and end of Cold War. 3 credit hours – Social Science Requirement)

HTS 2084 – Technology and Society (Analyzes social conditions that promote or retard technological activity, emphasizing the role of business, the state, and scientific and engineering professions, and the emergence of consumerism. 3 credit hours – Ethics Requirement and Social Science Requirement)
