WHAT IS THE HRT?
The Hispanic Recruitment Team (HRT) is a group of students that works with the Office of Undergraduate Admission to:
- Recruit Hispanic/Latino students.
- Increase the Latino presence on campus.

WHAT DO WE DO?
- We organize events on campus to help prospective students learn more about the application process, our traditions, and life on campus.
- We attend local college fairs and share our experiences with prospective students and families.
- We have fun and eat good food!

JOIN US!
We would love to see you at our events.

ALONSO - 2ND YEAR
I love that Georgia Tech is full of opportunities, not just academically, but in all aspects of college life. I thoroughly enjoy being intellectually stimulated every day in this smart and culturally diverse environment, but, at the same time, succeeding in college with the company and support of my friends and peers. I like Atlanta’s charming green spaces, beautiful architecture, recreational and touristic opportunities, musical events, and nightlife.

MONICA - 2ND YEAR
Georgia Tech has shown me how much I can accomplish and has challenged me to become a better version of myself. I have learned to not limit myself with expectations, to dream big, and to let my imagination be free. I am grateful to be part of an institution where everyone is motivated and driven to succeed. The culture, the atmosphere, and the people I’ve met have made my experience truly rewarding!

JUAN - 4TH YEAR
I love the people at Georgia Tech. Everybody is a nerd who understands that there is more to life than just getting a 4.0. So, if you want people to study with, play soccer with, or go out and have fun with, you have it. I feel that it’s this community of nerds that makes it possible to love this university in the good times and the bad times.

DIEGO - 4TH YEAR
Coming to Georgia Tech, I never expected to develop such a love for it. Even before starting classes, I had created a family of friends whom I care about. Everyone at Tech welcomed me with open arms, everyone understood that a new journey was ahead of us and that we would have to create new friendships in this new environment. I love that people at Tech are always embracing new opportunities and are striving to create leaders in our community. I have grown to care deeply about every aspect of Georgia Tech, and I can’t imagine being anywhere else.

ALEX - CLASS OF 2016
My time at Georgia Tech helped me go well beyond the dreams I had when I got to Atlanta as a freshman. I interned, performed research, and studied abroad in France, all due to the myriad of opportunities available to students. Tech prepared me for the real world and for my job, socially and professionally. Selecting Georgia Tech has been one of the best decisions I’ve made in my life, and graduating has been my biggest accomplishment so far. I can’t wait to see where I’ll be going next!
