ENROLLMENT • FALL 2006

% OF TOTAL NUMBER

Total Enrollment 17,914
Undergraduate 69 12,356
Women 28 3,528
Men 72 8,628
Minorities (all ethnicities) 32 3,904
International non-resident aliens 5 555
Residents of Georgia 68 8,361
Non-residents of Georgia 32 3,995

Quick Facts

Visiting the Campus
Campus tours are student-guided walking tours that begin at the Bill Moore Student Success Center and last approximately one hour and fifteen minutes. For directions to the campus, call 404.894.2691 or visit www.visits.gatech.edu.

ADMISSIONS INFORMATION SESSIONS
Monday-Friday (except holidays) • 10:00 a.m. and 1:00 p.m.
Clary Theater, Bill Moore Student Success Center

ENGINEERING INFORMATION SESSIONS
Monday, Wednesday, and Friday (except holidays)
12:15 p.m.-1:00 p.m. (immediately followed by the Admissions Session)
Clary Theater, Bill Moore Student Success Center

COMPUTING INFORMATION SESSIONS
Mondays (except holidays) • 3:30 p.m.
Bill Moore Student Success Center

TRANSFER STUDENT INFORMATION SESSIONS
Fridays (except holidays) • 3:30 p.m.
Clary Theater, Bill Moore Student Success Center

Freshman Admission Guidelines
Students are accepted based on an evaluation of their potential for completing a college degree at Georgia Tech, as determined by a review of the prospective student’s Application for Freshman Admission, high school academic record, and standardized test results. Georgia Tech does not set a minimum SAT or ACT requirement for admission, nor does it set a minimum level on the high school academic record. Rather, acceptance is based on the combined strength of all required credentials. Interviews and recommendations are not requirements for consideration.

As soon as all required credentials are received—completed application and SAT or ACT scores—the applicant’s file will be reviewed. If the applicant possesses above average credentials when compared with our most recent freshman class, an acceptance will be forwarded. All other applications will be held until the application deadline of January 15. At that point, final decisions will be determined and acceptances forwarded in middle to late March.

FALL 2006 FRESHMAN CASS PROFILE

Average high school GPA 3.71
Range (25th-75th percentile) of SAT scores
Critical Reading 590-680
Math 600-730
Combined 1260-1910
Comparable ranges (25th-75th percentile) for students submitting ACT scores
ACT-English 25-30
ACT-Math 27-31

The ACT composite score and other ACT scores are not considered for admission.

FRESHMAN ADMISSION APPLICATION DEADLINES

October 31 Application deadline for President’s Scholarship candidates
January 15 Application deadline for admission for summer and fall semesters
March 1 Application deadline for financial aid

ENROLLMENT STAGES FOR FRESHMEN—FALL 2006

Applied 9,514
Accepted 6,163
Enrolled 2,995
Undergraduate Degree Programs

College of Architecture
- Building Construction
- Industrial Design

College of Computing
- Computer Science

College of Engineering
- Aerospace Engineering

Ivan Allen College of Liberal Arts
- Economics
- Economics & International Affairs
- Global Economics & Modern Languages
- History, Technology, & Society
- International Affairs
- International Affairs & Modern Languages
- Public Policy
- Science, Technology, & Culture

Pre-professional Programs

A Georgia Tech education also prepares students for careers in teaching, as well as educational opportunities in medical, dental, pharmacy, veterinary, and law schools. Georgia Tech's approach provides students with an individualized program and a broader exposure to traditional programs.

Career Services

Career Services assists students in a variety of ways, from helping them choose a major to finding internships and part-time and full-time employment. The office provides career counseling seminars on choosing a major, resumes, interviewing, business etiquette, job search strategies, and how to use the career library. Internship "mock" interviews and cover letter and resume critiques.

Campus recruiting takes place every semester. In 2005-2006, representatives from hundreds of organizations conducted thousands of interviews with Tech students.

Cooperative Program

One of the nation's largest voluntary co-op programs, Tech's program requires five years to complete and integrates classroom study with field experience by alternating periods of employment with on-campus enrollment. Co-op students enjoy all the benefits of college life with the added benefits of gaining valuable work experience, meeting industry contacts, and money for tuition. The average starting salary for co-op positions as of fall 2006 was about $2,453 per month. This amount increases in subsequent work periods as the student progresses in school and at work.
