At Georgia Tech, developing leaders who advance technology and improve the human condition has been at our heart since our 1885 beginnings in Midtown Atlanta – and so has school spirit.

TACKLE TECHNOLOGY.

TREASURE TRADITION.
No matter your interest, at Georgia Tech you’ll find it. From A Capella to Zeta Tau Alpha, the Yellow Jacket community offers hundreds of clubs, societies, and every imaginable group in between.

FIND YOUR FIT

70+ VOLUNTEER ORGANIZATIONS

500+ STUDENT ORGANIZATIONS

56 GREEK ORGANIZATIONS

40+ SPORTS CLUBS

Connecting to community is an essential part of your college experience. We’ll make it easy for you through student organization events like this one hosted on Tech Green.
Our proximity to economic opportunity — being at the center of Midtown’s startup scene and neighbor to endless major corporations — is just one of the advantages of Tech’s Atlanta location. Equally important is that whether you’re in search of a big city vibe, or you’re more about that simple, affordable (think almost-free and totally free) fun, Georgia Tech offers the ideal base.

**STUDENTS RANKED THESE ATL SPOTS AMONG THEIR FAVORITES:**

- **Atlanta Streets Alive** is an open streets project where many Tech students, like Kirtain, Inika, Grace, and Madison, use the opportunity to freely explore the city.

- **Atlanta BeltLine** is a loop of multi-use trails that connects the city.

- **National Center for Civil and Human Rights** is one of Atlanta’s main cultural attractions.

- **Georgia Aquarium** is the world’s largest aquarium.

- **Mercedes-Benz Stadium** is an entertainment venue and home to the Atlanta Falcons.

- **Piedmont Park** is Atlanta’s biggest city park.

- **Ponce City Market** is a chic food hall with Atlanta’s premier rooftop experience.

- **Six Flags Over Georgia** is a 290-acre adventure theme park.

- **Woodruff Arts Center** is one of the largest arts venues in the U.S.
At Tech, learning goes far beyond the classroom — just ask any of the InVenture Prize contestants; they’ll rave about being able to showcase their innovations on live TV. Or the CREATE-X participants; they’ll go on about how that program exposed them to startup concepts and helped them successfully launch into the marketplace.

Something else you’ll hear lots about is those awesome internships and co-ops around the corner in Tech Square, our innovation ecosystem where dream-come-true opportunities are invented every day.

At just 23, Connor Ford is the co-founder and CEO of Spirit, an app he developed to help high schools engage and reward their students. He has since been able to parlay his success with high schools into an expanded business that now helps corporations with employee engagement. He credits the faculty and coursework from his time as a business major at Tech as being key to helping him grow his company.
SERVE LEARN SUSTAIN

Georgia Tech’s commitment to sustainability begins with educating students through classroom, co-curricular, and real-world learning so they can contribute to the task of creating sustainable communities. Enhance your education through one of our Serve-Learn-Sustain programs, such as earning a minor in Sustainable Cities, or joining the Innovating for Social Impact program.

AS A SUSTAINABLE CAMPUS, GEORGIA TECH HAS:

• Received Tree Campus USA recognition for 12 consecutive years.
• Implemented an award-winning Green Cleaning Program for its campus facilities.
• LEED-certified more than 20 buildings across campus.
• Set up over 300 solar panels and a green roof garden atop Clough Commons.
• Installed a network of underground cisterns capturing water for toilet-flushing.

The Kendela Building for Innovative Sustainable Design is the latest addition to a greener campus.
GO GLOBAL

Georgia Tech remains committed to our responsibility as a major player in the state’s development, but that doesn’t dim our international outlook. In fact, we recognize that in order to advance locally, we must expand globally.

Because of the partnerships Tech has established across the world, students can choose to study, work, or conduct research — or all three — overseas.

More than 2,000 undergraduate students have an international experience each year.

Tech offers study abroad programs in 60+ COUNTRIES

Georgia Tech has campuses in FRANCE (Georgia Tech-Lorraine) and CHINA (Georgia Tech-Shenzhen)

Georgia Tech has research centers in PANAMA and SINGAPORE
Keaira Banks became the first college graduate in her family after earning a biomedical engineering degree. Immediately upon graduating, she landed a job as a consulting analyst with the leading global professional services company Accenture, where she also interned during her final year at Tech.
